Ecoingenieros to Build \$80 Million Wind Energy Project in Chile

By Stephan Nielsen | Mar 9, 2012 8:51 AM GMT-0300 | [0 Comments](#) [Email](#) [Print](#)

Ecoingenieros Ltda., a Chilean energy company, is seeking permits to build an \$80 million wind farm in the region of Los Lagos.

The Pacifico project will sell electricity from 40 megawatts of generation capacity, the Santiago-based company said in a filing today with environmental licensing agency Comision Nacional del Medio Ambiente.
